Comment for planning application WSCC/036/20

Application number Name	WSCC/036/20 Sadie
Address	SPROULE CLOSE, 53, SPROULE CLOSE, ARUNDEL, BN18 0NX
Type of Comment	Objection
Comments	We are objecting the application for the ford energy waste site as we believe that it will cause large amounts of pollution not just from burning of toxic waste but also from the amount of vehicles that will be going through this village. The noise pollution will also increase with the big lorries going in and out. It is bad enough with the lorries going to the industrial site on a daily basis causing extra traffic and pollution already. It will also have a large impact on the natural environment including animals and their habitat. The dust also caused by this is a health risk to the people living in the houses close by. For a small built up village already with pollution and fumes issues already we do not think this is a suitable area to build such a building.
