Comment for planning application WSCC/036/20

Application number Name	WSCC/036/20
Address	GLADSTONE ROAD, 14, GLADSTONE ROAD, ARUNDEL, BN18 0JP
Type of Comment	Objection
Comments	I strongly object to the proposed development for the following reasons: Air quality will be impacted with additional waste dust and fumes from lorries using the facility. The impact from gas, smell and other noxious substances is unknown. Local roads are already struggling with the amount of current road users. This development will increase the volume of traffic hugely, bringing a vast number of additional large vehicles, together with increased pollution The proposed development is very close to existing residential properties and the proposed Ford residential development. The building is far too large and will become an eyesore for local residents and will dominate the landscape. In conclusion,I feel this site is totally unsuitable for a plant of this size, scale and type of operation
