Comments	I object to this massive building. We support the South Downs and Walberton parish comments in regard to the visual impact on the natural beauty. This huge building will ruin the natural views of the south downs national park. Also the A259 Yapton Lane is already busy along residential roads, this building will pull in hundreds of lorries each day - thundering down our small roads and shaking residential homes as they pass, this will also increase fumes and pollution from the HGV'S especially if the level crossing gates are closed and a build up of lorries. With whatever pollution the chimney spills out from burning tonnes of waste into our country air. Please stop this from being built. It is too close to residential areas and will impact on all of our lives within the surrounding areas.
