Comment for planning application WSCC/036/20	
Application number	WSCC/036/20
Name	Cheryl Booth
Address	9, Nursery Close East Preston West Sussex
Type of Comment	Objection
Comments	I would not like to see such a development in this area. I lived near something like this in the East Midlands. It generated increased HGV traffic which damaged the road services and caused tons of litter along the roadside as rubbish was blown from these lorries. There was a very strong and unpleasant smell around it for miles ( East Preston is east of the proposed development and therefore possibly affected by this). Finally there were several serious fires at the development near to where I live and I think the residents of Ford and the surrounding area should be informed of all these negative issues. It's not just about the ugliness of it, it is an environmental disaster for West Sussex.
