Comment for planning application WSCC/036/20

Application number Name	WSCC/036/20 Hazel Wilson
Address	15 Parkway Gidea Park Romford RM2 5NT
Type of Comment	Objection
Comments	As a regular visitor to the area I am writing to object to the proposed development on the following grounds 1) Traffic - The application significantly increased the number of HGVs per day from 30 to 120, this is a significant increase in traffic in narrow single lane roads and will negatively impact local residents and businesses. 2) Pollutants - the proposed plant will introduce harmful substances into the air posing danger to local residents, businesses and wildlife. 3) Local character - the sheer size of the proposed buildings will make them the largest and tallest buildings for many miles. Given this is a flat area they will be visible for many miles and will negatively impact the views of the historic town or Arundel with its cathedral and castle, and the South Downs National Park. 4) Classification - the proposed plan is not on the list of R1 applications and as such should be considered alongside land fill sites, not a recovery site. It is critical that any development is lawful and correctly categorised so that it receives the appropriate oversight and management.
