Comment for planning application WSCC/036/20

Application number Name	WSCC/036/20 Graham Wells
Address	KENLEGH, 22, KENLEGH, BOGNOR REGIS, PO21 3TS
Type of Comment	Support
Comments	I would like this facility to be given approval. This is a much needed facility to enable waste to be processed avoiding the waste ending up in a landfill. The process will also produce a much needed power supply for local homes and businesses. With the increased development in the area which continues to rise on an annual basis, all these homes will go on to produce further waste and this has to go somewhere. There is no landfill within Sussex or Hampshire and the current landfill in Surrey has only another 3 to 4 years left to run, no council wishes to have a landfill within its country, this development provides a good solution to a serious problem that will only get worse . This development will also offer much needed employment for the local area.
