Comm	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Mark Butler
Address	WITHERINGTON, TARRANT STREET, TARRANT STREET, ARUNDEL, BN18 9DJ
Type of Comment	Objection
Comments	The development is excessive in size and will cause a visual blight to the area. Prevailing winds are from the South West and thus any pollutants or escape of contaminants will be carried across the residential area or Arundel and the surrounding area and also across the National Park and the extensive surrounding farmlands. The heavy vehicle movements during the construction phase and the ongoing operation will cause excessive traffic on the narrow access roads such as Ford Road, especially in the light of the substantial housing developments proposed in the same area.
