Comment for planning application WSCC/036/20

Application number Name	WSCC/036/20
Address	
Type of Comment	Objection
Comments	I have lived in West Sussex all my life and bit by bit the county is being destroyed. The landscape is being eaten away by concrete and the serenity is being replaced by constant noise. We have been saddled with huge amounts of building and as a result more people, more pollution. There is already huge numbers of new homes planned for the Yapton and ford area, please don't put this chimney here. We already have so much development being approved, we really don't need this too. Furthermore the local seascape has been massively impacted but the wind turbines at sea, which can be seen for 75-100 in any direction, taking away the feeling of space and an infinite horizon. To build this chimney will impact the landscape for many many miles. Please leave West Sussex alone, stop approving applications, which are taking away the natural beauty of the area. Once it's gone it's gone. This is my county, my home and constant planning approvals are ripping it's heart out. No Chimney in Ford!
