Comments	I feel very fortunate to live in such a beautiful part of the countryside. In respect of this application, I would like to quote Chris Bartlett, the Head of Planning Services for WSCC, when in March 2020, he recommended refusal to the previous application for an Extended Well Test in Balcombe. "It is not in the public interest for the proposed major development to be localised in the High Weald AONB because there are alternative sources of supply. The High Weald Area of Outstanding Natural Beauty has the highest level of protection, with the NPPF directing authorities to give 'great weight' to conserving the landscape." The gentle grace and beauty of the High Weald is an asset of great value to the public. It should be enjoyed by everyone in these difficult times and conserved for future generations. It is not a suitable area for an oil well. Please refuse.
