Comment for planning application WSCC/045/20

Application number Name	WSCC/045/20 Hannah Osmond
Address	OLDLANDS AVENUE, 16, OLDLANDS AVENUE, HAYWARDS HEATH, RH17 6LY
Type of Comment	Objection
Comments	Living incredibly close to the site I am extremely concerned for the health of myself and my 6-year old son, due to anticipated impacts to the air quality - and of course the possibility of contamination to the water supply. The site is sited right on the very edge of Balcombe village and will without doubt impact the day to day life of the village - one of my biggest concerns being the lorries that will travel directly past the primary school. Most of the children walk, ride bikes, scooters to school and the likelihood for a serious incident is huge. Plus the additional pollution caused to the school environment due its proximity to the main road to the test site, is also of huge concern. Balcombe is situated in an AONB and the environmental impact to the woodlands, wildlife and water courses surrounding it (including possible contamination to the local reservoir in Ardingly; which again is very close to the site) are unacceptable. There are numerous, enormous detrimental impacts and this application must absolutely be refused.
