Comn	ient for planning application wSCC/045/20
Application number	WSCC/045/20
Name	Anthony Slingsby
Address	ROSE COTTAGE, BLACKSTONE LANE, BLACKSTONE LANE, HASSOCKS, BN6 9JD
Type of Comment	Objection
Comments	Until recently We lived in Balcombe? Partly a a result of the fracking risk we moved 15 miles to avoid the immediate environmental effects. Not suitable in an Area of Outstanding Natural Beauty. RIsk of pollution to nearby reservoir and water supplies. Impact of flaring on air quality and health. Increased HGVs going past the school. RIsk of groundwater contamination. Whilst the existing natural beauty of the area is due to the wealth and ecological management of the countryside on behalf of society by the landowner. This has provided a continuous low level of ecological employment over many decades. Fracking is a selfish act despoiling the natural landscapes for short term private gain which will affect the local environment will will inevitably suffer more from development once degradation caused by local fracking has been allowed. Please do not forsake your stewardship to support this raps of the countryside for ill gotten gain.
