Type of Comment	Objection
Comments	Hello, I am strongly in objection to this. There are numerous reasons as to why I believe this shouldn't go ahead. Firstly, the site is inappropriately situated in an official Area of Outstanding Natural Beauty and was turned down by the planners last time on this basis. It should be turned down again. In addition to this that the emissions from the flare are likely to cause pollution in the village, which has a school, many young children and also older people who are vulnerable living there. This has also caused a huge amount of stress to my parents since it was first proposed in 2012. They live in the village and are elderly. My dad also has asthma and breathing problems so is vulnerable to this kind of development. They have lived in the village for many years and do not want to have to leave the village for their health because it is their home. Please put a stop to this! Thanks, Rachel Metcalfe
