Comm	ient for planning application wscc/045/20
Application number	WSCC/045/20
Name	Peter Underwood
Address	71 Sherwood Avenue, Abingdon, OX14 3NA
Type of Comment	Objection
Comments	I strongly object to this planning application for a number of reasons. (1) we are in an environmental crisis which requires our society to decarbonise so more exploration for and extraction of fossil fuels is required. (2) there is more than enough existing reserves of oil and gas to meet our current demands which is another reason we don't need any further exploration. (3) This proposed development will need to unnecessary degradation of an area of outstanding natural beauty. (4) The only way extradition in the weald will work is to drill many wells horizontally which will lead to widespread environmental disruption across the south east. If we have any chance of surviving the climate crisis and protect our wildlife we have to stop any more drill sites being built.
