Comment for planning application WSCC/045/20

Application number Name	WSCC/045/20 Nick Raeside
Address	68c Medway Drive
Type of Comment	Objection
Comments	I object to this planning submission because even a small amount of this extraction could lead to air and water pollution. This country has commitments to reduce climate change so how can we allow this to happen? The high Weald area is an area of outstanding natural beauty with special wildlife that can be affected and the local population that simply don't want this to occur. There is nothing new in this application apart from reduced time. Please listen to the local community.
