Comn	ient for planning application wSCC/045/20
Application number	WSCC/045/20
Name	Kate Taylor-Smith
Address	WALHATCH CLOSE, 3, WALHATCH CLOSE, FOREST ROW, RH18 5GT
Type of Comment	Objection
Comments	The evidence of environmental damage across the world couldn't be clearer on this type of practice on any land - we are in a Climate Crisis- it really couldn't be more obvious - this inappropriate use of this land is not in the public interest, nor our planet. This is an area of outstanding natural beauty There is a risk to groundwater and a risk to Ardingly reservoir which is nearby If you allow this it will become the beginning of the industrialisation of the Weald Once again the industry uses normanclementure to obfuscate their methods of extraction- be informed - Stimulation by acid means acid fracturing Along with the need to have a 14 metre flare - this is an air pollution risk to local people Along with the HGV traffic on a B road past the village school How many reasons do you need to stop this blight of an industry that should be Investing in research on how to provide us with alternatives to dirty, destructive and polluting practices.
