## Comment for planning application WSCC/045/20

Application number	WSCC/045/20
Name	Kate Christie
Address	POST HORN LANE, 14, POST HORN LANE, FOREST ROW, RH18 5DD
Type of Comment	Objection
Comments	With all due respect, and not making anyone 'right or wrong' here, because we must move beyond that now, but it breaks my heart that we are still considering these kinds of approaches. It is time for us all to wake up to the damage that we are doing to our beloved planet and, for the sake of the generations still to come, come back into alignment with every action that we take. Approving this proposal would be doing quite literally the opposite and this is not the time, or the place for that. This is 'not in the public interest' and 'not appropriate to the area', Balcombe remains in Area of Outstanding Natural Beauty. We MUST choose ONLY renewable energy moving forward. Getting rid of fossil fuels is urgent, a national obligation. Please choose the right path forward for all of our sakes, and for our children's children. Grounds for objections: Not appropriate for an area of outstanding natural beauty Not in the public interest Risk to groundwater Risk to Ardingly reservoir which is nearby First step to industrialisation of the Weald Stimulation by acid means acid fracturing 14 metre flare is an air pollution risk to local people HGV traffic on a B road past the village school
