Comm	nent for planning application WSCC/045/20
Application number	WSCC/045/20
Name	Venetia Carter
Address	SUTHERLAND ROAD, 43, SUTHERLAND ROAD, BRIGHTON, BN2 0EQ
Type of Comment	Objection
Comments	It is not in the public interest to invest in fossil fuel exploration and extraction as it is a well-understood cause of climate change, which carries the increasingly apparent risk of climate breakdown threatening lives and livelihoods globally. On a more local level, it would create extra traffic from HGVs with the concomitant issues around road safety and air and noise pollution.
