Comm	ient for planning application wscc/045/20
Application number	WSCC/045/20
Name	Sarah Hirst
Address	GREENAWAY, LONDON ROAD, LONDON ROAD, HAYWARDS HEATH, RH17 6HS
Type of Comment	Objection
Comments	I strongly disagree with this application for many reasons. Firstly, the area is an area of outstanding beauty on the high weald in very close proximity to a village. It make no sense to set up such a production for oil in this area. There are so many other more suitable places where oil can be found without damaging an area of outstanding beauty which is highly populated. Secondly, the access to the site is through the centre of Balcombe village and past the village school. The addition of many HGVs along this road would increase the pollution particularly at the school which sits slightly below the road. The village would also be affected by the flaring at the site which sits in the valley below the village. This application by Angus Energy does not account for the local area and therefore should be refused. The application was refused before for very good reasons and these still stand.
