Comment for planning application WSCC/045/20

Application number Name	WSCC/045/20 Evan Wilkinson
Address	17A, PASTON PLACE, PASTON PLACE, BRIGHTON, BN2 1HA
Type of Comment	Objection
Comments	I object to any well tests, investigations, shale gas extraction or any fracking related activities in balcombe or across the county. The public have already made it clear that we do not want this here or anywhere. No amount of regulations will make this a safe or sensible prospect. Shale gas and fracking have proven to be dangerous and not as profitable as forecast in the USA. We cannot risk the damage it could do to our water, the risk or earthquakes, the increase in HGVs, the light and sound pollution that will impact local wildlife. This is an area of beauty that needs to be protected. We are facing a climate emergency and we need to take action to stand against fossil fuel extraction and production. WSCC need to fully commit to green and sustainable energy and stand strong against these shale gas companies. No fracking, no drilling, no testing in Sussex. Please.
