Comm	nent for planning application WSCC/045/20
Application number	WSCC/045/20
Name	Robert Burns
Address	4 Beach Close, Seaford, Sussex
Type of Comment	Objection
Comments	Please do not allow any drilling or fracking activity in Sussex. This technology has been shown to carry an unacceptably high risk of significant harm to public health and infrastructure as wall as to the health of the environment. The risk benefit balance is against the continued extraction of fossil fuels and should opposed by the planning process as unsustainable development.
