Comment for planning application WSCC/045/20	
Application number	WSCC/045/20
Name	Tim knott
Address	36 Gateford Drive
Type of Comment	Objection
Comments	This site is not suitable for commercial operation in light of the volume and proximity of local population and environmental consequences and risks that would ensue. Testing here is therefore both unnecessary and disruptive. Furthermore this contradicts the government's agenda away from fossil fuels and is not wanted by local voters.
