Comment for planning application wSCC/045/20	
Application number	WSCC/045/20
Name	Jon Potter
Address	RIVERBANK, 34, RIVERBANK, SHOREHAM-BY-SEA, BN43 5YH
Type of Comment	Objection
Comments	HGV traffic: Significant increase in HGVs close to the school on the B2036. Many of the HGVs are 6-axle vehicles that take up the entire length of the school as they wait to go down London Road. They cross both sides of the road as they turn into the site, and many are so tall they risk hitting the low slung power lines. Picture shows lorries about to pass the school whose outdoor classrooms are only a pavement width from the road. Flaring: Angus will have a flare on site for a year. The site is below the village and the prevailing wind will blow pollutants straight towards residents Risk to water and geology: An independent hydrology report found that the oil well was not sound in all sections which 'increases the risk to groundwater quality'. Angus' 'understanding of risk to groundwater systems () is wholly inadequate' (Tapajos Hydrology report 2019).
