Comm	nent for planning application WSCC/045/20
Application number	WSCC/045/20
Name	Tessa Craddock
Address	APPLETREES, MIDHURST, GU29 0LY
Type of Comment	Objection
Comments	There are many more sustainable forms of energy that are safe for people and the environment. Fracking causes a great deal of harm and the long term effects are still unknown. Reports of earthquakes are common in the areas of fracking and it is not scientifically right to pursue an energy source that is unsafe. I object this drilling and extended well test on the grounds of long term safety for the region.
