Comn	nent for planning application wSCC/045/20
Application number	WSCC/045/20
Name	Keith Exford
Address	KERNOW, DEANLAND ROAD, DEANLAND ROAD, HAYWARDS HEATH, RH17 6LX
Type of Comment	Objection
Comments	This industrial development is highly unsuitable to take place in an Area of Outstanding Natural Beauty. Moreover, it brings with it the risk of air pollution to the nearby residential area of Balcombe village from noxious gases emitted from the flare and water pollution created by chemicals leaking into ground water serving the nearby reservoir. Assurances about timely heavy vehicle movements during well testing were not delivered when the previous planning consent was activated by the previous contractor with detriment to those using the village school being the obvious consequence. Indeed the conduct of the previous testing processes and the failure of the authorities to regulate the works effectively provides no confidence about either the transparency of the contractors true intentions or adequate protection of the wellbeing of the local environment and community. Consequently, I object to this application.
