Comm	ient for planning application wscc/045/20
Application number	WSCC/045/20
Name	Rosemary Savage
Address	27 Middle Mead Fareham HANTS PO14 3EG
Type of Comment	Objection
Comments	I object to application WSCC/045/20 (extended well testing at Lower Stumble Balcombe) on the following grounds: 1. Air pollution from flaring, industrial plant, and multiple movements of heavy multi-axle HGVs. 2. Traffic hazard due to HGV movements on a narrow rural road, that runs within feet of the village school. 3. Groundwater pollution caused by drilling activities and the use of hazardous chemicals. 4. General: This development will change the character and composition of traffic on the B2036. It will change the character and distinctiveness of this part of the Sussex AONB,, and have an adverse impact on human health. The proposed development of new fossil fuel sources can only add to global warming and this application should be refused in the public interest.
