Comm	ient for planning application wscc/045/20
Application number	WSCC/045/20
Name	Jane Horrell
Address	NEWLANDS, 5, NEWLANDS, HAYWARDS HEATH, RH17 6HX
Type of Comment	Objection
Comments	This is an AONB, my concern is that this activity will not be only on this site, but in the longer term industrial disruption and pollution will spread across the region, for no economic gain, cetainly not jobs. I am concerned about the increase in large HGVs, I have watched them turn into the side and they block both sides of the London Road, if you are travelling from Cuckfield you do not see them until you are part way round the near bend. Also the well known pollution hazards from the flare and prevailing wind, and the risk to groundwater quality which is poorly reported by Angus Energy. There is also concern about the seismic activity caused by oil and gas extraction, we already experience tremors in the region, and they are well documented as being caused by production in Fylde.
