Comment for planning application WSCC/045/20

Application number	WSCC/045/20
Name	Frances Jones
Address	CHERRY CLOSE, 15, CHERRY CLOSE, BURGESS HILL, RH15 9PR
Type of Comment	Objection
Comments	Last year the government finally agreed to start referring to our current problem as a climate emergency. Since then they have done next to nothing to try and reduce the impact of humans on the climate. If we continue to let oil extraction go ahead without challenging it then we continue to hurt the planet. We cannot prioritize oil extraction and financial reward over our planet. If we don't find alternative ways of fuel then we are most certainly headed for extinction.
