Comment for planning application WSCC/045/20

Application number Name	WSCC/045/20 Brenda Evans
Address	8 Maypole Road Ashurst Wood East Grinstead RH193QN
Type of Comment	Objection
Comments	I wish to object to the proposal that Angus oil have to remove drilling fluids and carry out extended well tests at Lower Stumble Balcombe. My reasons are as follows: There is a risk to groundwater quality. An independent hydrological report has found that the oil well is not sound in all sections. The flare that will be on there will affect air quality in the locality. The prevailing wind will blow pollution towards residents. The surroundings roads are not suitable for the increase in HGV traffic that will be created. We need to stop using fossil fuels because of climate change and this proposal does the opposite of what we need to do to protect the environment .
