Comm	nent for planning application wscc/045/20
Application number	WSCC/045/20
Name	Camille Baker
Address	45 Foxglove Drive, Forge Wood, Crawley, West Sussex
Type of Comment	Objection
Comments	I just moved into this area because it was natural and away from the pollution of the city, I don't pollution and environmental damage to the area or water and potential for earthquakes. We know that the process of fracking is hugely damaging to the land - I'm originally form Canada and look at the mess there! This is a destructive and not very lucrative i.e. the outcome for effort/ cost versus benefit is extremely low for the overall destructive nature of it. Please stop this activity from happening in my neighbourhood and the UK as a whole!
