Comment for planning application wSCC/045/20	
Application number	WSCC/045/20
Name	Sarajane Ferris
Address	CHART LANE SOUTH, 4, CHART LANE SOUTH, DORKING, RH5 4DA
Type of Comment	Objection
Comments	Dear Sir / Madam My reasons for objecting include the damage which would be caused to the countryside. There would be HGV traffic passing the school and Increased air pollution from flaring. Also the geographical position of the village which is situated above the top of the flaring increases associated health risks to village occupants. I understand that this is not a temporary operation and would set the precedent that would promote oil exploration through the Weald. I am also opposed to threat to Ardingly Reservoir and the local water supply. I am aware of the seismic risk as where I live has been affected by earthquakes due to local drilling. There are minimal benefit to the local economy and is not in line with West County Council's commitment on Climate Change. Yours faithfully Sarajane Ferris
