Comn	ient for planning application wSCC/045/20
Application number	WSCC/045/20
Name	Laura Blake
Address	COMBERS, 2, COMBERS, HAYWARDS HEATH, RH17 6NE
Type of Comment	Objection
Comments	I object to this application on the following grounds: HGV traffic- there will a significant increase in HGVs. Many will be 6 axle trucks which are completely inappropriate for the road , especially as they will pass directly in front of the village primary school. Flaring - flaring will have to take place for a year. The prevailing wind will blow the pollutants towards the village. Air quality will be reduced which has health implications for residents. There is a risk to groundwater. An independent hydrology report found that the oil well was not sound in all sections. I cannot see any benefit to the local community or economy and I do not understand how it can be deemed to enhance an area of outstanding natural beauty. At a time when we need to explore alternatives to fossil fuels , exploring for hydrocarbons seems short sighted. Climate change is the most important issue the world is facing and wscc has a responsibility to its residents to protect their environment and their futures.
