## Comment for planning application WSCC/045/20

Application number	WSCC/045/20
Name	John Cannon
Address	29 Sunte Avenue Lindfield
Type of Comment	Objection
Comments	The environmental risks are too great to allow fracking in Balcombe. the risks for pollution, even earthquakes. the extra lorries etc will all be detrimental to the locale. there are local resevoirs and schools thta would be adversely affected. Developers who failed previously should realise that this is not a worthwhile venture Thank you jc
