Comments	the increase in traffic of hgv s travelling through the forest and then past balcombe school on the main road is a major hazard. there are low hanging branches through the forest and low hanging powerlines throughout balcombe. two previous incidents involved these site lorries: 1. snagging a large tree branch on the way through the forest, 2. having the fellow driver get out of the vehicle and walk in front to guide it under a low powerline 50 yards from balcombe school.
