Comm	nent for planning application wscc/045/20
Application number	WSCC/045/20
Name	Bernadette OGrady
Address	BARN MEADOW, 8, BARN MEADOW, HAYWARDS HEATH, RH17 6NQ
Type of Comment	Objection
Comments	I strongly object to this application as I was here during the previous attempt by Caudrilla to undertake oil production exploration and saw myself the devastation that occurred to the wildlife in that area especially the bats and the birds, we also know that there is a threat to the groundwater due to the instability of sections of the well. I am also aware of proven causation of seismic activity in other areas In the north and the Weald where this type of activity is carried out. The increased traffic of 6 axle HGV vehicles constantly driving past the little village school with all the added air pollution this produces increases the health risk to the children and another significant risk is due to huge vehicles being so close to the children in the playground.
