Subject: Angus Energy Application Lower Stumble
Date: 26 September 2020 14:56:58

Dear Sirs

I strongly object as a Balcombe resident to the proposed application regarding oil exploration at Lower Stumble. Commercial production will ruin an area of outstanding natural beauty for ever. Potentially pollute the water course, give off harmful gases through flaring of gas and cause extensive traffic movements of HGV's on rural roads.

This is irresponsible and wrong due to these factors please stop this application.

Kind regards

Andrew & Paula Bennett
