Subject: OBJECTION to Angus Energy major development/application WSCC/045/20
Date: 27 September 2020 16:32:14

Dear Sir or Madam,

I am writing to express my OBJECTIONS to Angus Energy coming into the Balcombe area with a major development to explore for oil. I have great concern about the risk to groundwater quality.

There is no public interest for a major development in an area of outstanding natural beauty.

I feel that the need for residual hydrocarbons can be got in other ways.

Thank you very much for your considerations to my OBJECTIONS.

Kind regards,

Mr Philippe Davies
