Subject: WSCC/045/20 Objection
Date: 03 October 2020 07:20:11

Dear Sir, Madam,

I'm aware my objection is outside of the official period, however I still want to express my opinion on the planning application WSCC/045/20

The industrialisation of an area of outstanding natural beauty necessitated by the flow test proposed by Angus energy is entirely out of keeping with rural nature of the area, and a great threat to its appeal, local biodiversity, and thus the local economy over the long term.

In addition, and most importantly, seeking more fossil fuels when the Planet is faced with climate breakdown is contrary to the global effort required to halt climate change, and the Government's commitment to move towards a carbon neutral economy. Fossil fuels must be left in the ground. There are a proliferation of alternative energy sources which we can exploit for native energy production. Global demand for oil has slowed in 2020 making Angus position even more untenable.

Finally, as a local resident with a young child I have very serious concerns regarding the increased traffic and the threat to air quality.

Kind Regards

Katherine Press
