Type of Comment	Objection
Comments	I would like to strongly object to the proposal which I believe will have serious traffic implications for all the surrounding areas. I do not believe that this road is necessary or that enough thought has gone into its planning or consultation with those it will affect most. It appears to me and many I have spoken to that the real purpose for this road is to facilitate the building of thousands of new homes and selling the idea to the local community as an improvement in traffic management. How adding 5,500 new homes will ever help the local traffic problem is a mystery to me. I would also like to object on ecological grounds. The planned road way runs directly through a natural wild life oasis created by the villages of Eastergate, Walberton and Barnham. No amount of mitigation will be able to compensate for a new road and thousands of houses being built through the middle of this sanctuary and I have no doubt that the affect on the natural wildlife will be devastating.
