Comment for planning application WSCC/052/20

Application number Name	WSCC/052/20 Alex Moss
Address	WEST VIEW, FONTWELL AVENUE, FONTWELL AVENUE, CHICHESTER, PO20 3RU
Type of Comment	Objection
Comments	I live in a directly affected property. There seems to be have been an awful lot of letter writing and verbiage about this proposed new road amongst the decision makers but I am still none the wiser as to how the impact it will have on my home or the surrounding area. What is the point of putting a flashy video with nice music on the website showing a new road going through open fields? There has to be visibility as to what the new housing plans are in conjunction with the planning application for the new road - otherwise the whole thing is completely misleading. Until this is made clear, any application for a new road should not even be contemplated. Like many others have said, I have no comprehension at all as to how the existing infrastructure is expected to cope with all this and will not repeat views of others concerning increased traffic usage - its obvious without the use of detailed modelling. The public consultation was an absolute joke and until a proper detailed plan is submitted (including all housing plans) which we can all understand is submitted, this application should not even see the light of day.
