1. MR K I M MILLER, 11 MURRELL GARDENS, BARNHAM PO22 0DF [REDACTED]  
[REDACTED] Comments on the above-1/suitability of use for the area-Not enough land available for this to pass my house (one of the two nearest to it) even with the 16 metres of land to be purchased from Halo car repair to the west of us  
2/loss of light/outlook/privacy-with a noise barrier erected, the views we have to the north and the Downs, will be obstructed. Loss of privacy with road metres away  
3/Dust /odour /fumes-No doubt lots of dust if constructed in the summer-fumes from car exhausts, especially when the southern section is completed and cars stack back from the roundabout, 50 metres to the south of us. 4/-impact on trees-there is a Tree Preservation Order in place on the trees to the west, bordering the Halo site-how can 16 metres of land be purchased and the trees preserved? 5/Noise/disturbance-noise much increased and this will be noticeable at night, especially if a noise reducing road surface is not used. 6/-The effect on the land and character is huge-this field is the natural boundary between Barnham and Eastergate Kim Miller
