Comments	I believe that the new A29 realignment scheme is fundamentally flawed in the assumptions it makes not just in the vehicle traffic which will be increased but also in the animal wildlife which will be seriously affected by the proposed new road. I have very serious concerns regarding the local community who use Eastergate Lane and the children who have to walk down Fontwell Avenue. Not having a safe point to cross at the roundabout by SPR seems criminal and inviting serious harm to those who have to traverse to school, the doctors or local shops.
