Comments	As a parent of 2 children who attended Newick House and the Woodlands Meed and as a Governor I fully support the planning application submitted for the new college building. I am very aware of the shortcomings of the existing building which is not fit for purpose to deliver a modern curriculum and support the needs of the students. The staff do a great job despite the limitations of the building and I know that future students will greatly benefit from a modern building that meets their needs. The design provides quality facilities and will create a vibrant, exciting, fully accessible and safe environment for the students to be the best they can be.
