Type of Comment	Objection
Comments	We would like to raise objections to the proposal of constructing new school buildings and floodlit playing field in the area behind our garden. Over the last three years we have been subjected to dust and building noise from Kings Weald, other developments in Kings Way and Folders Lane. There has been more vehicle access in the area making pollution and safety of walking with more cars from the houses and builders lorries making the area dirty. We would not like building going on in our back garden, reducing our privacy, air quality, light quality, noise and disturbance of our living area as well as impacting on our health. The area is already becoming over populated without public having access to the floodlit facilities at all times of the day. This is also likely to devalue our property. We object strongly to these plans.
