Comments	I am the county councillor for Hassocks and Burgess Hill South and although the college site is not within my division, the Woodlands Meed school site is. I therefore know the school and college well. I fully support this application. The college site does not currently provide adequate accommodation to meet the huge range of needs of the students that attend. They move from an outstanding school site to the current sub-par college site that is unable to accommodate the needs of some children who end up having to leave to attend other schools. This building will allow children to move up and retain their friendships with their peer group. It will provide the facilities they need, ensuring no child needs to move outside to access toilets for example, and also ensure they can access a fuller curriculum on site. While there may be disruption for neighbours during the build, this site is already accessed by school buses and parents and therefore there will be no long term change for residents in terms of impact on their daily lives. I fully support this application.
