Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Lisa Cross
Address	JOHNSON WAY, 48, JOHNSON WAY, ARUNDEL, BN18 0TS
Type of Comment	Objection
Comments	I strongly object to this new proposal. I live very near the Ford Industrial site, and over recent years the noise, and smells coming from the industrial site have increased. I feel that this proposal will only make this much worse. The chimney will be a massive eye sore to our village, and I am concerned about the impact to our environment and our health having this building on our doorstep. Yapton/Ford is being over developed as it is, without this monstrosity being added. Our village is being destroyed by over development, and with no improvements being made to the roads and the infrastructure. Not to mention the speeding and noise from vehicles already traveling to and from the industrial estate that we have to put up with, which I imagine with this development will only get worse. Please consider rejecting this application. Not one single person who lives in this area wants this development. Surely this type of development would be better suited to a far less residential area, where it wouldn't have such a detrimental effect on so many people.
