Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="The proposed facility will be a blight on the local area for miles around due to its size and height - totally inappropriate for the area. Although not in it, the facility will be visible from huge swathes of the South Downs National Park. The roads around the proposed site are not big enough for the existing traffic, let alone the additional traffic that this facility will doubtless bring with it."/>
