Comments	This is simply a monstrous proposition. There is no regard for the environmental conditions for people that will have to suffer huges amount of pollution into the air that we breathe in our village. The area is also being developed with housing nearby too, and the two schemes are not compatible with each other. The roads network in the area is under huge strain and cannot possibly cope with massive increases in lorries. There will be far more technical objections made by more knowledgeable people regarding this, but as a local resident, it just feels that the council are dumping all their rubbish on the local area of Ford and yapton, and to hell with what we think. This has got to stop.
