Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	William Seeds
Address	43 Arundel Rd, Littlehampton BN16 7BY
Type of Comment	Objection
Comments	Too big, and more importantly way too high. The facility will be a blot on the landscape for miles around. Surely it can be made lower, either through excavating a basement level or through increasing the footprint and maybe covering with solar panels to offset any increased cost? I also have concerns the road infrastructure really isn't up to meeting the ongoing logistic requirements of the facility.
