Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 Karen
Address	ST. GEORGES WALK, 34, ST. GEORGES WALK, CHICHESTER, PO20 3XT
Type of Comment	Objection
Comments	This new plan for the waste site will cause a destruction of natural habitat and a loss of wildlife which are becoming extinct. It will also cause an extremely high volume of lorries into the surrounding areas which are mainly small village roads. This extra traffic will cause pollution on the air we have to breath in our residential areas and schools. Also pollution coming from the waste centre itself. The village roads in the surrounding areas are already suffering with potholes and cracks from heavy lorries, they are not built for constant heavy trucks driving down them all day and night. It is also a danger to pedestrians and cyclists who use these roads. This site will effect our quality of lives, the air we breath making our roads more dangerous, together with more loss of wildlife from the development of the site.
