Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Steph Wells
Address	LOVEYS ROAD, 71, LOVEYS ROAD, ARUNDEL, BN18 0HQ
Type of Comment	Objection
Comments	I object to this proposal due to many reasons. The main being the sheer volume of traffic the village and surrounding roads will see. Lockdown has given false figures for the actual amount of traffic around the area as less card are out on the road. I believe when everyone is back working as they were and unis etc are back there will be even more. Yapton and Barnham specifically are also subject to huge house building applications, some of which have already started. I cannot see how the roads around Yapton or any of the villages are going to cope with this increase of household traffic let alone industrial on something this size! It makes no sense! A lot of habitat is also going to be wiped out if this is given the go ahead, lots of animals particularly foxes, deer but mostly hedgehogs love around that area and with struggling wildlife numbers it seems almost barbaric to destroy what little habitat they have left after all those houses are built. In addition to this the building will be ugly,far too big even with the changes, views from people's homes will be spoilt. The disruption whilst it's being built is another thing, the people who live in the villages have been sunjected to building works, traffic, noise, mud on the roads, almost constant traffic lights for months and months now, it's time it stopped. At least get all the flipping houses built and see how the area copes with that additional traffic before approving anything else!!!
